

MID SOUTH TOOL SUPPLY

SOLUTIONS FOR THE METALWORKING INDUSTRY

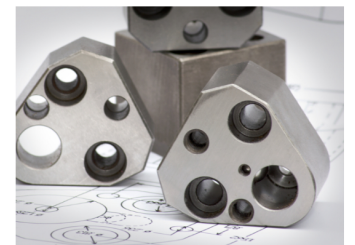

ANCHOR DANLY is a leading international manufacturer and distributor of high quality die sets, components, steel plates, and metal fabrications. Anchor Danly is used in the production of tools, dies, and molds for metal working and plastics injection molding, machine bases, mining and construction equipment, and general fabrications. Their mission is to be the customer focused world-class supplier of choice to the metal working (tool) and plastic forming (mold) and steel fabrication industry servicing all manufacturing used throughout the world. They manufacture the smallest to the largest die sets and machined steel plates in the industry. Their expertise and experience in manufacturing die sets, steel fabrications and steel plates, ensure stringent quality standards and controls for our customers.

HYSON is a design and manufacturing company focused on innovation that creates value for our customers. Through their force and motion control products, it enables companies to form standard and advanced metals creating safer, more reliable products to their markets. Their solutions are integrated into mills, presses and stamping tools and help master the complexity of metal forming. They have both off-the-shelf and custom-designed precision force products, and because of this we provide the right solution for your application.

For over 75 years PORTER PUNCH has been a mainstay in the metal stamping industry. Porter has always provided the stamping world with complete lines of both inch and metric standardized components. Facilities in Ohio, Georgia, and Canada produce these standard items sized to customer callout quickly and economically. First class deliveries without exorbitant costs have made Porter a favorite in die shops everywhere. Huge inventories of bal-lock and head type retainers are available for Porter customers on an immediate delivery basis. For new tools or engineering changes this capability makes the end user much more able to get his tools into production.

With one of the largest stocks of tool steel in the Southern USA, MSTS can offer tool steel in a number of ways. We offer saw cut, precision squared (by DIAMOND METALS), drill rod and flat ground stock. We stock the most popular grades like A-2, D-2, 4140, S-7, M-2, H-13, O-1, CPM Steels and Vertex. We also carry CRS, HRS, Aluminum, Brass, Bronze, & Copper.

MSTS stocks Heat Treat Wrap at a competitive price ready for immediate shipment. We are also a preferred distributor for CRESS Heat Treat Furnaces and heat treating accessories.

HEAT TREAT WRAP & FURNACES

Rapid Air Feeders
PowerBrake Dies
Unittool Punch & Die
Argon Stamps

Other Lines We Offer:

Raymond Die Springs
Danly Die Springs
Carr Lane Components
Ready Benders & Cam Units
