

Anchor Danly is a leading international manufacturer and distributor of premium-quality die sets, components, steel plates, automation bases and metal fabrications used in the production of tools, dies, and molds for metalworking and plastics injection molding, machine bases and automation equipment.

Headquartered in Brecksville, Ohio, Hyson™ is a world-class engineering and manufacturing company that provides high-quality, safety-engineered force and motion control solutions for a wide range of applications and industries, including automotive, aerospace, white goods/HVAC, medical, and steel production, and heavy industry. Our team collaborates with customers to understand their applications and provide trustworthy solutions that optimize their operations.

PORTER PRECISION PRODUCTS
World Class Products That Perform!

For over 75 years Porter Punch has been a mainstay in the metal stamping industry. Porter has always provided the stamping world with complete lines of both inch and metric standardized components. Facilities in Ohio & Georgia produce these standard items sized to customer callouts quickly and economically. Porter has a large stock of bal-lock and heady type retainers as well.

Carr Lane Manufacturing is recognized as a world leader for standard tooling components and industrial parts used by virtually every industry around the globe. Known primarily for jig & fixture tooling components, Carr Lane Manufacturing offers more than 100,000 industrial parts.

DIAMOND METALS

Pre-squared tool steel blocks help you to focus on your business by saving time and money in making the cuts yourself. Let Diamond Metal square up your tool steel so that when you receive your order, you can begin your work. Diamond Metals actively makes pre-squared blocks for roughly 65% of all orders.

PowerBrake Dies is a leader in pressbrake tooling for both American and European style tooling. Special or standards, Powerbrake has you covered. With quick quotes and leadtimes you can count on, PowerBrake is the brand you want in your facility.

AMCOR manufactures standard tooling for the metal forming industry in Grand Rapids, Michigan. With their flexible machines and manufacturing systems we can also assist with custom tooling and machining needs. AMCOR has a variety of equipment, ranging from single and multi-spindle turning centers, chucks, screw machines, manual lathes, and CNC turning and machining centers.

MISUMI

MISUMI is configured to save time throughout the product lifecycle from design to build and ongoing maintenance. With over 20 million products globally and 80 sextillion part configurations for automation, press die, and plastic mold applications, MISUMI is the most comprehensive, user friendly engineering resource for a variety of industries including automotive, medical equipment, consumer packaging, semiconductor, and more.

Rapid-Air pioneered the first compact air feed with internal air circuitry, setting the technological and performance standards for the industry. The unique dual air valve system provides outstanding performance backed by reliability that has made Rapid-Air the recognized innovator and leader in air feed technology.

The READY Bender® provides precise rotary forming motion which gives tool designers a way to produce consistent bends even during high production volume. READY Bender® are available in a variety of sizes and offer many popular bending options.

ARGON TOOL is the source for steel stamps, stamp holders, metal marking tools and machines. Standard items and specials are all available. Quick turnaround and quality products are a staple of Argon Stamps.

Cress Manufacturing Company Inc. is a leader in the industry of manufacture of ceramic, glass kilns and electric furnaces for the heat treatment of cold work tool steels. With single chamber and dual chamber furnaces, Cress has the options you need to in-house heat treating

PRECISION MARSHALL

Whether you are looking for Precision Ground Flat products, Deluxe alloy and tool steel plate, high speed drill bits, or drill rod, Precision Marshall is the Master Distributor you can depend on. Our 98% satisfaction rate assures we have the products you need and can ship it quickly.

OTHER LINES WE CARRY:

HEAT TREAT WRAP & BAGS
UNIPUNCH TOOLING
DANLY & RAYMOND DIE SPRINGS
URETHANE & PLASTICS

METALS/MATERIALS STOCK:

TOOL STEELS
ALLOY STEELS
NON-FERROUS METALS
ALUMINUM & CAST ALUMINUM
